D. Members will commit themselves to ongoing learning and professional improvement through training, etc.

Integrity: To maintain and broaden public confidence, Members will perform all professional responsibilities with the highest sense of integrity. Integrity can accommodate the inadvertent error and the honest difference of opinion, but cannot accommodate deceit or subordination of principle.

Non-Discrimination: Members will not discriminate against service recipients or colleagues based on race, religion, national origin, sex, age, sexual orientation, economic, or physical or mental disability and illness. Members will continually broaden their understanding and acceptance of cultural and individual differences and in doing so render services and provide information sensitive to those differences.

Advocacy: Members will support public policies and legislative issues that affect public health.

Ethical Obligations and Conflict Resolution for Community and Society: When members are aware of unethical conduct or practice on the part of an agency or another provider, they will report the conduct in writing to the Steering Committee.

When managed properly, conflict has the potential to deepen an understanding of an issue and lead to constructive change. Conversely, if not managed well, conflict can be destructive. The T.E.A.M is dedicated to addressing health issues with tobacco through public policy, legislation, education, prevention, cessation, advocacy, and enforcement. In this capacity, we have a major public trust to uphold. Therefore, it is essential that conflict be dealt with in a proactive manner. Otherwise, the capacity to uphold public trust can be compromised. For these reasons, the following conflict resolution policy is adopted:

- Conflict is defined as an impasse in which a quorum of T.E.A.M members perceives the inability to resolve a difference.
- When a conflict has been determined, the following options are available for resolution:
 1. A clear statement of all differing positions will be articulated. The pros and cons of each position will be developed (Force-Field Analysis). If, after this is accomplished and all members agree, a vote can be taken. If a vote is not deemed appropriate, and if the analysis of pros and cons does not lead to a consensus, the process moves to the next level.
 1. An internal mediator/facilitator will utilize strategies for constructively dealing with the conflict. If the conflict is still not resolved, or if the conflict scenario is of such a nature that there is little support for internal mediation, the next step in the process will be invoked.
 1. The T.E.A.M will ask an external mediator/negotiator to assist in resolving the conflict.
 1. The external mediator/negotiator will bring recommendations forward to the Steering Committee.
